Subject Index to Volume 27

A

Ablation, radiofrequency for cure of atrial flutter, 653

Aboriginal and non-Aboriginal patients, a hospital based study of. Community acquired pneumonia in North Eastern Australia, 59

Aborigines, 'normal' lung function in rural Australian, 543

Acacia melanoxylon, occupational asthma due to Blackwood, 452

ACE inhibitor and Myocrisin treatments, nitritoid reaction in a patient on, 343

Acromegaly, an audit of long-term octreotide therapy for, 12

Activity and toxicity of docetaxel (Taxotere®) in women with previously treated metastatic breast cancer, 40

Acute cardiac event,: the Family Atherosclerosis Risk Intervention Study (FARIS): risk factor profiles of patients and their relatives following an, 568

Acute gait disturbance associated with pamidronate infusion, 719

Acute hepatitis C viral infection, interferon therapy for, - a review by meta-analysis, 611

Acute leukaemia, adult, - a retrospective study of 66 consecutive patients, 301

Acute myeloid leukaemia relapsing following bone marrow transplantation, prolonged disease-free survival with specific re-induction therapy in, 712

Acute myocardial infarction, anomalous left anterior descending coronary artery presenting with, 594

Acute myocardial infarction, thrombolytic therapy in patients presenting to a peripheral metropolitan emergency department with, (Letter), 192

Acute myocardial infarction, treatment strategies for,: looking through the window of opportunity (Editorial), 521

Acute myocardial infarction (AMI), interventional management of, (Supplement), 504

Acute myocardial infarction (AMI), time delay in the treatment of,: a comparison of primary percutaneous transluminal coronary angioplasty (PTCA) with thrombolysis, 531

Acute myocardial infarction (AMI) in Victoria, 1987-1994, trends in in-hospital mortality following, 431

Acute promyelocytic leukaemia with all-trans retinoic acid (ATRA), intravascular haemolysis complicating treatment of, 450

Acute pyelonephritis in a child caused by *Proteus penneri*, 347

Acute severe asthma, socio-economic disadvantage, quality of medical care and admission for, 294

Acute severe cardiogenic pulmonary oedema, experience with the use of continuous positive airway pressure (CPAP) therapy in the emergency management of, 319

Acute stroke in Auckland, early management and outcome of, 561

Adenocarcinoma, microfilarial pleural effusion associated with, 341

Adrenal carcinoma presenting as Conn's syndrome, 201

Aetiology of lymphocytopenia in a hospital population (Letter), 706

Akinetic hyperthermic crisis complicating Parkinson's disease, rhabdomyolysis and, 194

Alcohol and survival in the elderly: the Dubbo Study (Letter), 185

Allergy, prevalence of IgE-mediated, to latex in hospital nursing staff, 165

All-trans retinoic acid (ATRA), intravascular haemolysis complicating treatment of acute promyelocytic leukaemia with, 450

Alveolar, diffuse, damage following a single administration of a cyclophosphamide containing chemotherapy regimen, 605

Alveolar microlithiasis, pulmonary,: an alternative diagnosis to miliary tuberculosis, 336

Amanita poisoning, death from, 448

Ambulatory infusion chemotherapy, establishing a programme for continuous, 680

Amino acid receptors, spinal cord excitatory, and plasma catecholamine autonomic responses in the conscious rabbit (Supplement), 479

Amiodarone, the place of,: an overview of the four recent large controlled trials, 582

Anaemia, barmah forest virus causing,?, 345

Anaemia, Heinz-body haemolytic, and omeprazole, 441

Anaemia, spur cell, resolves after orthotopic liver transplantation (OLT), 198

Angina, is a standard regime for anticoagulation with heparin in unstable, adequate?, 665

Angina using serum troponin T, early prediction of risk in patients with suspected unstable, 554

Angioplasty, improving the results of coronary, (Supplement), 510

Anomalous left anterior descending coronary artery presenting with acute myocardial infarction, 594

Anticoagulation, is a standard regime for, with heparin in unstable angina adequate?, 665

Aortic stenosis, perhexiline improves symptomatic status in elderly patients with severe, 24

Aortic valve endocarditis, mitral-aortic intervalvular fibrosa pseudoaneurysm complicating, 193

Arrhythmia, radiofrequency catheter ablation in symptomatic ventricular, 398

Arthritis, pneumococcal, and monoclonal gammopathy of undetermined significance, 342

Arthritis, rheumatoid, the use of biologics in the treatment of, - the good news and the bad news, 175

Arthritis, rheumatoid, the use of biologics in the treatment of, (Letter), 607

Arthritis rheumatoid (RA), the use of biologics in the treatment of, - the good news and the bad news, 175

Asia, video assisted thoracoscopic surgery (VATS) - its impact and implications in, 156

Aspiration pneumonia, the value of the lipid-laden macrophage index in the assessment of, 550

Assessment of endothelial function - go with the flow (Editorial), 637

Asthma, occupational, due to Blackwood (*Acacia melanoxylon*), 452

Asthma, rehospitalisation for, within 12 months: unequal rates on the basis of gender at two hospitals, 669

Asthma, risk factors for repeat attendance at hospital emergency departments among adults and children with, 277

Asthma, socio-economic disadvantage, quality of medical care and admission for acute severe, 294

Asthma attendances to hospital emergency departments, can we reduce acute? (Editorial), 275

Asthma hospitalisation in persons aged 0-34 years in New Zealand, the decline in, 578

Asthma prevalence, morbidity and management practices in South Australia, 1992-1995, 672

Atherosclerosis, and cholesterol, (Supplement), 492

Atherosclerosis, the cell biology of, - new developments (Supplement), 497

Atherosclerosis Risk Intervention Study, Family,: risk factor profiles of patients and their relatives following an acute cardiac event, 568

Atrial flutter, radiofrequency ablation for cure of, 653

Auckland, early management and outcome of acute stroke in, 561

Australia, gastroenteritis in,: who, what, where, and how much? (Editorial), 147

Australian and New Zealand Journal of Medicine: 1996 (Editorial), 1

Australian Bone Marrow Transplant Recipient Registry, a report from the,: haemopoietic stem cell transplantation in Australia 1992-1995, 408

Autoimmune thyroid disease (Letter), 78

Autologous peripheral stem cell transplantation for lymphoma, multiple cycles of aggressive chemotherapy prior to, 323

Autonomic nervous system in health and disease, the importance of the, (Supplement), 467

B

Bacille Calmette-Guerin (BCG) vaccination on intradermal tuberculin reactivity in Tasmania, the effect of, (Letter), 82

Backup, grounds for more, (Letter), 602
Barmah forest virus causing anaemia?, 345
Bartonella henselae infection, neuroretinitis and encephalopathy due to, 454
Bile acid malabsorption, SeHCAT tests for determination of, (Letter), 344
Biologics, the use of, in the treatment of rheumatoid arthritis (Letter), 607
Biologics, the use of, in the treatment of rheumatoid arthritis (RA) - the good news and the bad news, 175
Biopsy of the lung, cerebral artery gas embolism (CAGE) following fine needle aspiration, 338
Blackwood (*Acacia melanoxylon*), occupational asthma due to, 452
Blood pressure control, orthostatic, and ageing (Supplement), 462
Bone density and osteoporosis: crunching more than numbers (Editorial), 519
Bone density testing at five Australian centres, instrument performance in, 526
Bone marrow transplantation, prolonged disease-free survival with specific re-induction therapy in acute myeloid leukaemia relapsing following, 712
Brachial ultrasonography and flow-mediated dilatation (FMD) for assessing endothelial function, reproducibility of, 649
Brain and eye, the effect of treating people with reversible ischaemic attacks of the, on the incidence of stroke in Australia, 420
Bread bag clip, a case of upper gastrointestinal bleeding secondary to a, 75
Breast cancer, activity and toxicity of docetaxel (Taxotere®) in women with previously treated metastatic, 40
Breast cancer, revolutionary and evolutionary progress in, 523

C
Calcium channel blocker controversy in 1997, the, 330
Cancer, activity and toxicity of docetaxel (Taxotere®) in women with previously treated metastatic breast, 40
Cancer, revolutionary and evolutionary progress in breast, 523
Cancer in the elderly, an analysis of the outcomes of treatment of small cell lung, 160
Carcinoma, adrenal, presenting as Conn's syndrome, 201
Cardiac death in Tasmanian men, risk factors for sudden unexpected, 45
Cardiac event,: the Family Atherosclerosis Risk Intervention Study (FARIS): risk factor profiles of patients and their relatives following an acute, 568
Cardiac practice, evidence-based, (Supplement), 515
Cardiogenic pulmonary oedema, experience with the use of continuous positive airway pressure (CPAP) therapy in the emergency management of acute severe, 319
Cardiomyopathy, the natural history of left ventricular wall thickening in hypertrophic, 51
Cardiovascular complications, and chronic renal disease,: inevitable or preventable? Now is the time for some intervention studies (Editorial), 273
Catecholamine autonomic responses, plasma, in the conscious rabbit, spinal cord excitatory amino acid receptors and, (Supplement), 479
Catheter ablation, radiofrequency, in symptomatic ventricular arrhythmia, 398
Catheters labelled as single use, re-use of electrode, (Letter), 353
Cell biology of atherosclerosis - new developments (Supplement), 497
Cell transplantation, haemopoietic stem, in Australia 1992-1995: a report from the Australian Bone Marrow Transplant Recipient Registry, 408
Central control mechanisms in hypertension (Supplement), 474
Cerebral artery gas embolism (CAGE) following fine needle aspiration biopsy of the lung, 338
Cervical meningioma and lumbar stenosis: a case presenting as immobility, 442
Chemotherapy, establishing a programme for continuous ambulatory infusion, 680
Chemotherapy prior to autologous peripheral stem cell transplantation for lymphoma, multiple cycles of aggressive, 323
Chemotherapy regimen, diffuse alveolar damage following a single administration of a cyclophosphamide containing, 605
Cholesterol and atherosclerosis (Supplement), 492
Choroid plexus papilloma (CPP), CSF dissemination of a benign, 597
Chronic fatigue syndrome (CFS), lung function test findings in patients with, (Letter), 346
Chronic renal disease and cardiovascular complications: inevitable or preventable? Now is the time for some intervention studies (Editorial), 273
Clozapine, it is possible to use, to treat Parkinson's disease (Letter), 197
Cogan's syndrome, (A)typical, (Letter), 200
Community acquired pneumonia in North Eastern Australia. A hospital based study of Aboriginal and non-Aboriginal patients, 59
Conn's syndrome, adrenal carcinoma presenting as, 201
Continuous ambulatory infusion chemotherapy, establishing a programme for, 680
Continuous positive airway pressure (CPAP) therapy, experience with the use of, in the emergency management of acute severe cardiogenic pulmonary oedema, 319
Coronary angioplasty, improving the results of, (Supplement), 510
Coronary angioplasty with thrombolysis, time delay in the treatment of acute myocardial infarction (AMI): a comparison of primary percutaneous transluminal, 531
Coronary artery presenting with acute myocardial infarction, anomalous left anterior descending, 594
Coronary-subclavian steal syndrome, primary stenting as treatment for, 80
CPR orders, no, in a teaching hospital (Letter), 708
CPR orders by a general medicine unit in a teaching hospital, implementation of guidelines for no-, 379
CPR policies, no, - have we made any progress? (Editorial), 369
Cross-reactivity to porcine factor VIII of factor VIII inhibitors in patients with haemophilia in Australia and New Zealand, 658
CSF dissemination of a benign choroid plexus papilloma (CPP), 597
Cyanosis (isosorbide dinitrate induced methaemoglobinaemia), an unusual cause of, 596
Cyclophosphamide, oral, for refractory or relapsing thrombotic thrombocytopenic purpura (TTP), 439
Cyclophosphamide containing chemotherapy regimen, diffuse alveolar damage following a single administration of a, 605
Cystic fibrosis: a changing clinical perspective, 6

D
Danazol in the treatment of a systemic lupus erythematosus (SLE)-like illness associated with deficiency of the fourth component of complement, 189
Death from Amanita poisoning, 448
Dental staining, imipenem induced, 190
Dialysis, high density lipoprotein (HDL) particle composition in patients with end stage renal failure (ESRF) on chronic, 285
Docetaxel (Taxotere®), activity and toxicity of, in women with previously treated metastatic breast cancer, 40
Dubbo study, alcohol and survival in the elderly: the, (Letter), 185
Dural ectasia, and Marfan syndrome,: a common, yet little known association, 339
Dyspnoea in an adult with HIV infection: a rare cause, 711

E
Elderly, a PCR-based method of screening individuals of all ages, from neonates to the, for familial hyperaldosteronism type 1, 685
Elderly, alcohol and survival in the,: the Dubbo Study (Letter), 185
Elderly, an analysis of the outcomes of treatment of small cell lung cancer in the, 160
Elderly patients with severe aortic stenosis, perhexiline improves symptomatic status in, 24
Elderly people, malnutrition in, 68
Elderly people, malnutrition in, (Letter), 444
Electrode catheters labelled as single use, re-use of, (Letter), 353
Emergency Department, peripheral metropolitan, thrombolytic therapy in patients presenting with acute myocardial infarction to a, (Letter), 192

Emergency management of acute severe cardiogenic pulmonary oedema, experience with the use of continuous positive airway pressure (CPAP) therapy in the, 319
Encephalopathy, and neuroretinitis, due to *Bartonella henselae* infection, 454
Endocarditis, mitral-aortic intervalvular fibrosa pseudoaneurysm complicating aortic valve, 193
Endocarditis, *Staphylococcus lugdunensis*, 84
Endophthalmitis, metastatic septic, complicating pyogenic liver abscess caused by *Klebsiella pneumoniae*, 77
Endothelial function, assessment of, - go with the flow (Editorial), 637
Endothelial function, reproducibility of brachial ultrasonography and flow-mediated dilatation (FMD) for assessing, 649
Evidence of no difference or just no evidence of any difference (Letter), 600
Evidence-based cardiac practice (Supplement), 515
Excitatory amino acid receptors, spinal cord, and plasma catecholamine autonomic responses in the conscious rabbit (Supplement), 479
Exercise vascular responses in health and disease (Supplement), 459
Extramedullary haemotopoiesis (EMH) complicating HbE-beta thalassaemia, 714
Eye, and brain, the effect of treating people with reversible ischaemic attacks of the, on the incidence of stroke in Australia, 420
